

Tapered Plugs GPN 605

www.poeppelmann.com/en/gpn605

Application

The GPN 605 tapered plugs offer protection for openings, bore holes and internal threads against dirt and damage. The solid design is suitable for increased loads. The conical shape is ideal for accommodating tolerances. The material is extremely heat-resistant up to 250° C for short periods.

Your added values:

Higher temperature resistance.

Extremely heat resistant up to 250 °C

More robust.

Solid design for higher demands.

More versatile.

The tapered design is ideal for accommodating large tolerances.

Better.

Suitable for closing off apertures, bore holes and internal threads.
